

## Exchange Hosting

Your solution for keeping your Email, Calendar and Contacts wirelessly synced at all times without the cost of maintaining your own Exchange Server

Monthly Costs Start at \$10 per user

Hosted Exchange gives each user the ability to use Microsoft Outlook or Mac Mail on their desktop and wirelessly sync their Email, Contacts and Calendar with their iPhone, BlackBerry, Android or other smart phone without having to connect the phone to the PC. This wireless synchronization gives each user the flexibility to keep their contacts, calendar and email up-to-date at all times.
